THE PEREGRINE FUND

# RAPTORS AT RISK

2018

PSA Photographic Society of America

*PSA 2018-216*

# JUDGES - BOTH SECTIONS

**Kate Davis** began life with a love of animals and by junior high school in 1973, she was caring for mammals and raptors with the Cincinnati Zoo Junior Zoologists Club. Her father had a great interest in photography, tutoring Kate with a darkroom in the basement all of her childhood. She received a degree in Zoology from the University of Montana in 1982 and founded the non-profit educational organization Raptors of the Rockies in 1988. Kate keeps over a dozen non-releasable and falconry birds at the facility at her home in Western Montana. Program appearances with these raptors number 1673 for 132,000 people, young and old alike, including 132 schools. They are the subjects and source of inspiration for her drawings, paintings, etchings, welded steel sculptures, photography, and writing. She has authored and illustrated 5 books on raptors, and Raptors of the West won the National Outdoor Book Award and Montana Book Award Grand Prize. Her 6th title is Birds Are People, Too, a blend of humor and photography -"It's a riot." Most of the images were taken right in her yard, with a Bald Eagle nest nearby on the river. She and Raptors of the Rockies are celebrating thirty years of education, and with two young Teaching Team birds now, no retirement in sight.

**Calen Offield** is a wildlife photographer who manages Blue Maple Real Estate and serves as a director of the Offield Family Foundation. He received a Bachelor of Arts in Photography from Brooks Institute of Photography in 2005 and specializes in black and white film processing, digital processing, medium and large format, and professional lighting. Calen's photography assignments have taken him to Australia (SWOT, Conservation International), Northern Greenland (High Arctic Institute), Indonesia/Komodo Islands (CRES SD Zoo), Panama/Mexico/Galapagos (Offield Center for Billfish Studies), and Arizona (Bat Conservation).

**Paul Spurling** (Caldwell, Idaho) is an avid photographer and outdoorsman as well as the Senior Software Developer and Director of Technology for The Peregrine Fund. His photos have been published on numerous websites and in a children's book, a birding field guide, and an Idaho Fish & Game regulations booklet. When he's not maintaining and expanding The Peregrine Fund's considerable technology and internet assets, Paul enjoys hunting, fishing, and hiking in the mountains of central Idaho.
